Dear Robin

**Datacraft Ltd Assistance with Appeal Day**

This letter is to record our sincere gratefulness for your company's assistance with our recent street collection.

The success of the day is completely dependant on volunteers donating their time to collect on the street. On behalf of the Association we would like to acknowledge the good number of your staff that were able to give up their time to collect for us.

I was coordinating one area in the Molesworth Street area, and I know from the feedback that your staff gave me, that they enjoyed themselves on the day and were grateful to be able to have the opportunity to collect.

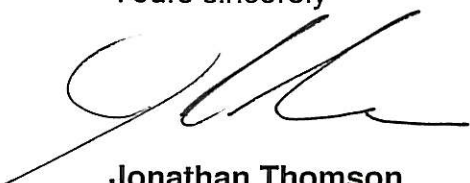

I applaud the forward-thinking nature of companies such as Datacraft that see the positive influence that they can have in community situations. The provision of labour is an excellent way for your company to provide resources to community groups such as ours.

This year for our street collection the final total was more than \$9250, which was a 40% increase on last years effort. The staff in your company were a major factor in this increase.

This money will be used to help provide practical services for people with diabetes – including our Diabetes Info Centre and our Field Officer service.

So, in conclusion could I ask that you thank the members of your staff on our behalf, and wish your company all the best for your partnerships with other community organisations in the future.

Yours sincerely

**Jonathan Thomson**  
**President**
